---

## PROFESSIONAL SUMMARY

---

**Senior Frontend / MERN Stack Developer** with **3+ years of experience** building **scalable, SEO-optimized, high-performance web applications** using **React.js, Next.js, TypeScript, Node.js, and MongoDB**.

Strong expertise in **SSR, SSG, Core Web Vitals optimization, REST & GraphQL APIs, and modern UI frameworks**. Experienced in **remote collaboration, Agile workflows, code reviews, and CI/CD pipelines**. Passionate about clean architecture, performance optimization, and delivering business-focused digital solutions.

---

## WORK HISTORY

---

**Next.js Developer**, 06/2025 - current

**Auxilium.digital** - Gujranwala, Pakistan

- Developed **SEO-optimized, server-rendered applications** using **Next.js (SSR & SSG)**, improving page load speed and search visibility.
- Integrated **RESTful APIs** and optimized data fetching, reducing unnecessary network calls.
- Conducted **code reviews** and enforced best practices to maintain a clean, scalable codebase.
- Collaborated remotely with designers, backend engineers, and product managers in Agile sprints.

**Frontend Developer**, 09/2022 - current

**Auxilium.digital** - Gujranwala, Pakistan

- Built and maintained **scalable React & Next.js applications** used in production environments.
- Improved **Core Web Vitals (LCP, CLS, FID)** through lazy loading, image optimization, and code splitting.
- Developed **reusable UI components** using **TailwindCSS & Material UI**, reducing development time.
- Ensured **WCAG accessibility standards** and cross-browser compatibility.
- Worked closely with backend teams to integrate **REST & GraphQL APIs**.

**Frontend Developer**, 06/2022 - 08/2022

**Scenarios.limited** - Lahore, Pakistan

- Collaborated with a highly skilled development team to gain hands-on experience in modern frontend technologies.
- Assisted in building and maintaining responsive web applications using **HTML5, CSS3, JavaScript, and React.js**.
- Contributed to early-stage projects under the guidance of senior developers, learning best practices in **UI/UX design, component development, and state management**.
- Developed a strong foundation in **version control (Git)**, Agile methodologies, and cross-browser compatibility.
- Improved coding skills and transitioned from basic web development tasks to implementing **modern frameworks and libraries**.

---

## SKILLS

---

- **Frontend:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3
- **UI & Styling:** TailwindCSS, Material UI, Responsive Design, WCAG Accessibility
- **Backend:** Node.js, Express.js, MongoDB, Firebase
- **APIs:** RESTful APIs, GraphQL, API Integration
- **Performance & SEO:** SSR, SSG, Core Web Vitals, Code Splitting, Lazy Loading
- **Tools & DevOps:** Git, GitHub, CI/CD Pipelines, Agile/Scrum
- **Other:** Cross-Browser Compatibility, UX Optimization

---

## EDUCATION

---

**Bachelor of Science:** Computer Science, 08/2018 - 05/2022

**UET LAHORE – KSK** - Lahore

**Key Academic Projects:**

- **Web-Based 3D Home Designing (FYP):** Built using **MERN Stack**, enabling users to design homes interactively in 3D.
- **Food Ordering System:** Created using **MERN + Firebase** for real-time order placement and tracking.
